PROJECTS

POWERPOOL | a step taken for sustainable developement
Sep 2024 | GFG Office Noida
- **PowerPool:**It aims to create a marketplace for clean renewable energy resources for a sustainable future. people can donate/sell their assets using this platform. it creates a sense of awareness among the people about sustainable development. we used HTML,CSS,JavaScript,Figma.

EQUIBOND | BrainWare Hackathon
oct 2024 | DTU
- **EquiBond:** It aims to create a decentralized platform that prioritizes privacy while securely connecting developers, startups, and researchers to showcase projects funded through Social Impact Bonds (SIBs). By leveraging decentralization, we will implement an automated payment system that utilizes social impact metrics to track progress and outcomes, ensuring that user data remains confidential. this platform will facilitate fractional ownership opportunities, allowing users to hold ownership stakes based on their contribution and partnership in collaborative projects. A chatbot feature will assist users in navigating the platform, answering questions, and gathering feedback, all while maintaining user privacy and enhancing engagement. we used HTML,CSS,JavaScript,API,Figma.

EDUCATION

INDIRA GANDHI DELHI TECHNICAL UNIVERSITY FOR WOMEN
B.Tech in Electronics and Communication with artificial intelligence
